TI-84 Plus family of graphing calculators

Test preparation: Resetting all memory

Use this method when exams require clearing all calculator memory. Clearing all memory deletes all programs and deletes all calculator applications (apps).

IMPORTANT: Resetting all memory premanently deletes all applications (apps) from the calculator. Back up your TI-84 Plus to a computer before resetting so they can be restored after the exam.* (Note: The Finance app is built-in functionality and will remain in place after a reset.)

Resetting all memory

Before the exam
Resetting all memory prior to exams will ensure that no user-saved information is available during the exam.

After each exam
Repeating all of the steps will reset the memory again and ensure that any information entered or saved during the exam is perm-anently deleted.

* Use TI Connect™ or TI Connect™ CE software to back up your TI-84 Plus graphing calculator prior to preparing it for an exam (resetting all memory) and to restore applications after the exam.
Screens may vary slightly by model and Operating System (OS).

Models in the TI-84 Plus family include:
TI-84 Plus
TI-84 Plus Silver Edition
TI-84 Plus C Silver Edition
TI-84 Plus CE

**1)** Press 2nd [mem] to display the MEMORY menu.

```
NORMAL FLOAT AUTO REAL RADIAN MP

MEMORY
1:About
2:Mem Management/Delete…
3:Clear Entries
4:ClrAllLists
5:Archive
6:UnArchive
7:Reset…
8:Group…
```

2) Select **7: Reset** to display the RESET menu.

```
NORMAL FLOAT AUTO REAL RADIAN MP

RAM ARCHIVE ALL
1:All RAM…
2:Defaults…
```
